

APIWE GOODWILL MAKHANYA

Graduate Software Developer | C# · .NET · SQL Server · ASP.NET · Entity Framework Core

Amanzimtoti, Durban, KZN (open to relocation) | 065 551 0704 | aphiwemakhanya490@gmail.com | linkedin.com/in/aphiwem490 | github.com/aphiwemakhanya490 | Available Immediately

PROFESSIONAL SUMMARY

Motivated and results-driven BCom graduate in Information Systems and Technology (UKZN, 2025) with a Dean's Commendation (1st Semester 2025). Proficient in C#, .NET (Framework 4.7.2 / Core), ASP.NET Web Forms, SQL Server, Entity Framework Core, REST APIs, HTML5, CSS3, and JavaScript, applying sound OOP, SDLC, and Agile/Scrum practices throughout. Led full-stack development of a real-client Point-of-Sale and e-commerce system — a C#/.NET WinForms desktop application and a companion ASP.NET web app with PayStack integration, deployed on Microsoft Azure.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript
Backend	C#, .NET (Framework 4.7.2 / Core), ASP.NET Web Forms, Entity Framework Core, REST APIs
Database	SQL Server (T-SQL, stored procedures), MySQL
Tools & Cloud	Git/GitHub, Microsoft Azure, Visual Studio 2022, Postman, Power BI, Draw.io, SQL Management Studio
Methodologies	Agile/Scrum · SDLC · Systems Analysis & Design · QA & Testing · Technical Documentation

PROJECTS

Full-Stack Point-of-Sale & E-Commerce System *KwaMshana Café (Client Project) | Feb – Nov 2025*

C# · .NET 4.7.2 · WinForms · ASP.NET Web Forms · SQL Server · ADO.NET · OWIN/Identity · PayStack API · Draw.io · Azure · Git

- Conducted requirements elicitation with a real external client, producing Agile user stories, Context/Level-0 DFDs and a fully normalised ERD (3NF, 9+ entities) modelled in Draw.io.

Desktop (WinForms):

- Built an MDI POS application on a centralised SQL Server database via ADO.NET and TableAdapters, with role-based access control and day-specific menus.
- Implemented end-to-end transaction processing — cart, payment validation, PDF receipt generation (iTextSharp), and embedded Power BI dashboards.

Web (ASP.NET / Azure):

- Built OWIN/ASP.NET Identity authentication (SendGrid confirmation, OAuth login) and integrated the PayStack gateway via HttpClient/Newtonsoft.Json.
- Managed order lifecycle with SQL Server stored procedures; ran formal alpha testing (4-level defect taxonomy) and deployed to Microsoft Azure.
- Delivered three live system demonstrations to an academic panel and external moderator.

Madlamini Library Management System *Personal Project | June 2026*

C# · .NET Framework 4.7.2 · Windows Forms · Visual Studio 2022 · Git/GitHub

- Built a Windows Forms desktop app to manage a library catalogue, booking/cart workflow, and in-app payment flow.
- Implemented authentication, role-based session management (Admin/Manager), and a persistent session-state dashboard.
- Built a synchronised cart and subtotal system across forms, with South African input validation (ID/DOB parsing, phone, postal code) and a modal payment flow with change calculation.

E-Commerce Website (WordPress & WooCommerce) *University of KwaZulu-Natal | May 2025*

- Built a WooCommerce storefront (catalogue, cart, checkout, payments) on XAMPP; managed MySQL via phpMyAdmin.

EDUCATION

Bachelor of Commerce — Information Systems and Technology, Information Systems Computing

University of KwaZulu-Natal, Durban | 2022 – 2025 | Dean's Commendation, Semester 1 2025

Coursework: Data Structures · Databases & Programming · Advanced Systems Analysis & Design · Applied Systems Implementation I & II · Networking & Database Management · Information Systems Security · Algorithms

National Senior Certificate (Grade 12)

KwaMakhutha Comprehensive High School | 2021 | 72% Overall Average

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) Certified AI Foundations Associate — Oracle University, August 2026 (valid to August 2028).

- SQL Intermediate — SoloLearn, 2025.

WORK EXPERIENCE

Stock Handler | Makro Amanzimtoti, Durban | Feb – May 2026 & Dec 2024

- Received, sorted, and processed stock; picked, packed, and labelled customer orders with quality checks before dispatch, maintaining accuracy under peak-period pressure.
- Maintained FIFO stock rotation and accurate inventory records; assisted customers with product queries and order status.

Seasonal Beach Safety Guide | eThekweni Municipality, Durban | Dec 2023 – Jan 2024

- Directed beach visitors to safe swimming zones in English and isiZulu; ran a child ID wristband system and managed public safety incidents.
